Relic

「INSPIRING **CREATIVITY**」

Return to Raw Elegance

The Relic Series reflects the work of an era etched in concrete, where the austere beauty of unrefined cement finishes became synonymous with durability and timeless design. Step back in time with the new series from the house of Aludecor that reimagines the raw and rugged charm - designing a symbol of lasting elegance.

With every shade, Relic invites facade enthusiasts to rediscover an aesthetic that once defined simplicity and purpose, now elevated into a design solution that adds character and depth to facades.
