Metal Composite Panel

About Us

Since2002, Aludecor has been at the forefrontof theIndian ACP industry, pioneering innovations and setting new benchmarks in the built environment of modern India. Our relentless pursuit of perfection is evident in our cutting-edge products and processes, which elevate modern architecture while embracing sustainability. Our R&D lab's prestigious NABL accreditation, under the Quality Council of India, attests to our team's relentless dedication to quality and forward-thinking solutions. By partnering with global titans like Hindalco, PPG, Beckers, Monopol, AkzoNobel, and Nippon Paints, we bring you products that define the future of architecture — durable, aesthetic, and sustainable. Our focus on enhancing the built environment and improving community well-being drives us to continually push the boundaries of what's possible. With three advanced production units and an extensive network of retail partners, Aludecor leads the industry with groundbreaking solutions that inspire and elevate architectural design.

- Giving back to nature
- 10+ years warranty period
- Lead-free
- Unmatched flatness
- Infinite shades in 15+ series

Timeless Textures

Theysay,Godis in the details. The intricacy embeddedwithin an ornament, the arches of a spellbinding sculpture, strokes that eternalise timeless paintings in galleries — every artistic pieceof brilliance is born of skilled hands.

Similarly, the birth of architectural wonders at Aludecor bears the meticulous, diligent touch of skilled hands. We are more than a range of shades. Behind every fascinating piece of metal that has been shaped into an extraordinary form, lies the mastery of our metalsmiths and their adept hands that have perfected the story of human ingenuity.

Aludecor's new Rugged Metal series honours the timeless artistry of metalsmiths — their passion, their invention, their imagination. This series stands as a tribute to the legacy of craftsmanship that has shaped human civilisation. As an ode to the hands that have forged history, the Rugged Metal series reflects centuries of tireless work by metalsmiths. From ancient artefacts preserving timelines to modern architectural statements changing how we see art — these artisans have masterfully and steadily transformed raw metal into tools, structures, and art, leaving an indelible mark on architecture and design.

Each shade in this series captures the essence of rugged metal, embodying the raw, unrefined beauty that only skilled hands can transform. Whether it's a feature wall that tells a story or an entire building that stands as a testament to the enduring appeal of metal, these shades provide the perfect foundation for imaginative and bold designs. The Hammered finishes — Silver, Galvalume, Graphite, Bronze, Brass, and Copper — reflect the textured, tactile quality of metal worked by master artisans. Desert Bronze captures the warmth and resilience of metals weathered by time, while Oceanic Copper evokes the tranquil, enduring spirit of the sea.

In choosing Rugged Metal, one is not just selecting a finish; one is truly connecting with a tradition of craftsmanship that transcends time. You are becoming a part of a story that spans generations, adding your own chapter to the rich tapestry of human creation.

Let the Rugged Metal series inspire you to build spaces with passion and breathe life into art. Come, explore a timeless tale of textures.

Embrace the Rustic Charm

Oceanic Copper

PRODUCT SPECIFICATION

Sl. No.	Particulars	Product Composition		
1	**PRODUCT GRADE**	AL 45	AL 43	AL 33
2	**TOTAL THICKNESS OF THE PANEL**	4 mm	4 mm	3 mm
3	**THICKNESS OF THE ALUMINIUM SKIN** (Top skin/Bottom skin)	0.5 mm	0.25 mm	0.25 mm
4	**THICKNESS OF LDPE/ MINERAL CORE**	3 mm	3.5 mm	2.5 mm
5	**GRADE OFALUMINIUM SKIN**	AA 3105/*AA 5005 (Supplier: Hindalco)	AA 1100 (Supplier: Hindalco)	AA 1100 (Supplier: Hindalco)
6	**COATINGTHICKNESS** (Front Coil)	30 µ - 50 µ (Quad Fusion Coating technology) **Suppliers:** Akzonobel/PPG/Beckers/ Nippon	30 µ - 50 µ (Quad Fusion Coating technology) **Suppliers:** Akzonobel/PPG/Beckers/ Nippon	30 µ - 50 µ (Quad Fusion Coating technology) **Suppliers:** Akzonobel/PPG/Beckers/ Nippon
7	**COATINGTHICKNESS** (Back Coil)	4µ - 7µ Service Coat	4µ - 7µ Service Coat	4µ - 7µ Service Coat

8	PRODUCT TOLERANCE	WIDTH	LENGTH	THICKNESS		SQUARENESS	BOW	
				COIL	PANEL		AL 45	AL 43 & 33
		±2.0 mm	±4.0 mm	±0.03 mm	±0.2 mm	Ma ximum 5.0 mm	Maximum 0.5% of width and/or length	Maximum 0.8% of width and/or length

*Rugged Metal panels are also available in AA 5005 in AL 45 against minimum order quantity.

Best Practices Award from the European Society for Quality Research (ESQR), for Quality, R&D, Meticulous Test Metrics, First-rated Industry Practices, and Best-in-class Products, received at Brussels, Belgium.

Aludecor FireWall A2 Fireproof MCPs | Aludecor FireWall Fire Retardant MCPs

#BeatTheFire

Aludecor FireWall A2 has fireproof properties close to metals

Aludecor MCPs can come in both Aludecor FireWall A2 and Aludecor FireWall. They have Factory Production Control certification from Emirates Safety Laboratory (ESL) for reaction to fire classifications of EN 13501-1 Class A2 – s1, d0 for FireWall A2 and EN 13501-1 Class B–s1, d0, DIN 4102 Class B1 for Aludecor FireWall.

Aludecor Systems Silicone Free Cladding Profiles and Fixtures

Aludecor Systems are versatile and can be assembled quickly. They are a concealed fixing system of the following types.

Male
Female
Rainscreen
